The following is an examiner's statement of reasons for allowance: Applicant has amended claim 17 by inserting the word "coating" and amended claims 21, 22 and 25 to clarify the kind of phosphor set forth. Claims 21-25 have been resubmitted without lines and claim 11 has been canceled. Thus all rejections under section 112 are hereby withdrawn.

Applicant's arguments for reconsideration received 01-20-2004 have been considered and found persuasive. It is agreed that the cited prior art does not provide motivation beyond "obvious to try" with respect to selecting isobornyl acrylate as reactive diluent in the compositions disclosed by deSouza or Kameyama et al. It is further agreed that GB '382 does not teach the advantages of using isobornyl acrylate in the instantly claimed composition, namely, to provide improved long term stability of light intensity emitted, as shown by Figure 1 in the instant specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susan W Berman whose telephone number is 571 272 1067. The examiner can normally be reached on M-F 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Seidleck can be reached on 571 272 1078. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
